FOLD

cdlabelgen 4.1.0 © 2001–2008 Avinash Chopde <avinash@aczoom.com>

home page: <http://www.aczoom.com/tools/cdinsert/>

Instructions:

1. Cut out the cover insert, on page 1, around the outer perimeter. Do not cut along the center.
2. Fold the cover insert in half, with the text on the outside.
3. Insert the cover insert in the CD case cover.
4. Cut out the tray insert, on page 2, around the outer perimeter.
5. The right-most long narrow title "tab", on the tray insert, is for CD case with a transparent tray. Remove this "tab" if the CD case has an opaque tray.
6. Fold the left and right long narrow title "tabs" to a 90 degree angle, away from the main tray cover portion. If the right-most "tab" is retained for a transparent tray, fold that "tab" 90 degrees again, away from the title "tab" next to it. The text should appear around the exterior of the folded cover, not the interior.
7. Remove the tray from the case.
8. Place the tray insert in the case.
9. Insert the tray, being careful that the title tabs are flat against the case.
10. Please appropriately discard this portion and the scrap bits of paper.

### The Skylark Of Space

The novel begins with the accidental discovery, in a Government laboratory in Washington D. C., of a form of clean nuclear power. Our hero, Dr. Richard Seaton, uses this power to build first a flying belt and then an interstellar spaceship. He later discovers that the process operates by generation and manipulation of gravity fields.

When his government coworkers do not believe him, Seaton acquires rights to his discovery from the government and commercializes it with the aid of his friend, millionaire inventor Martin Crane. A former colleague, Dr. Marc DuQuesne, joins with the unscrupulous World Steel Corporation to try to steal Seaton's invention. The resulting conflict escalates, as Seaton and Duquesne develop greater and greater technical capabilities and enlist more and more powerful alien races as allies.
